

# Pennchlor S 40/40<sup>®</sup>

Chlortetracycline, Sulfamethazine  
Type A Medicated Article

## PRODUCT DESCRIPTION

- Antibacterial combination premix for oral administration in feed to swine.
- Each pound of premix contains 40 grams of chlortetracycline activity and 40 grams (8.8%) of sulfamethazine.

## FORMULATION

- Free-flowing meal feedstuff.
- Ingredients: Chlortetracycline calcium complex, sulfamethazine, calcium carbonate, roughage products, mineral oil.

## FDA STATUS

- CAUTION: Federal law restricts medicated feed containing this veterinary feed directive (VFD) drug to use by or on the order of a licensed veterinarian.
- Type A Medicated Article for use in the manufacture of swine feeds.
- Category II drug; requires a feedmill license (not required for Type B and Type C medicated feeds).

## SWINE INDICATIONS

- Reduction of the incidence of cervical abscesses.
- Treatment of bacterial swine enteritis (salmonellosis or necrotic enteritis caused by *Salmonella choleraesuis* and vibronic dysentery).
- Prevention of bacterial swine enteritis (salmonellosis or necrotic enteritis caused by *S. choleraesuis* and vibronic dysentery) during times of stress.
- Maintenance of weight gains in the presence of atrophic rhinitis.

## WITHDRAWAL PERIOD

- 15 days.

## PACKAGING

- 50-lb, fuchsia color-coded bags.

## KEY FEATURES

- Combination of two potent antibacterial agents, providing broad-spectrum activity.
- Readily absorbed, providing effective blood and lung tissue concentrations.
- Cost-effective medication for effective control of enteritis.
- Helps prevent disease during times of stress.
- Appropriate for use in starter formulations.
- Free-flowing formulation promotes consistent mixing.
- Wide safety margin.
- Color-coded bag for easy identification.
- High-quality manufacturing at US Pharmgate facilities according to FDA requirements.
